### MESSAGE FROM FATHER ANGELO

When do we stop learning? This is the question that comes to mind around this season when children go back to school. When I graduated from college, I said to myself, "finally! I don't have to study anymore." Looking back, I know I couldn't be more wrong. Not only did I decide to enter the seminary and spend 7 more years of studying, but to this day, studying, preparing and learning never end. My wise professor reminds us; The more you know, the more you know you don't know.

This back-to-school season is once again a great reminder for all of us to never stop learning. In the practice of our faith, growth happens with the desire to know more and more about Jesus and his wisdom each day. Learning comes from being open and staying humble. As we mature, there is a temptation to dismiss new opportunities for growth with the thought that everything we need to know, we have already experienced and learned.

When we look at the life of our Blessed Mother, we hear "Mary treasured up all these things and pondered them in her heart." (Luke 2:19). It is a heart that never stops learning. Growing in our faith and holiness is a continuous learning process. Christ's teaching comes to us in different forms and could come from different people He sends our way, Let us stay open to learning and growing.
